- Setup Guide (pdf)

Base

The extra stable base collapses for easy transport and storage. When ready for set-up, simply flip the base upside down and fold out the legs.

MONITOR MOUNT

Monitors are mounted using the universal VESA standard 200 x 200 up to 400 600.

The Expand XL is an extra-large stand for monitors & flat screens up to 92 lbs. or 60 in. It can be used freestanding or integrated into our Expand MediaWall, Expand MediaWall XL and Expand LinkWall. When the monitor stand is used with these products, the panel is cut to fit the foot and monitor mount. The pole has a channel where you can easily hide the cables and wires. The stand is very stable with a total weight of only 37.5 lbs. It comes in a three parts and delivered in a compact bag with multiple handles and straps providing several different carrying methods. * Monitor is not included.
